

Kilkenny County Council Library Service provides a wide range of resources to support schools in developing literacy, numeracy and creativity among children.

We also provide services to schools on our mobile library van as part of its scheduled timetable.

Schools can access services and supports by contacting their partner library, which can be found under School Services on kilkennylibrary.ie.

You may contact your local library at any time to enquire about any of the services and resources that are available.

Kilkenny Library Service is just one of the services provided to you by Kilkenny County Council.
